Paragon Systems Expands Fixed Asset Management Operations

Newly opened west coast office will bolster physical inventory management, Sage FAS software sales and related services.

Chicago, IL – May 11, 2009 – Paragon Systems, a provider of Sage FAS Fixed Asset Software, physical inventory management services, fixed asset valuation, and cost reconciliation studies, has announced that they've opened a west coast office, naming Angie Bolton-Lyons as Manager of this operation. This office specializes in the Sage FAS software solutions, physical asset inventories, and fixed asset business process controls & policies.

Prior to joining Paragon Systems, Ms. Bolton-Lyons held the role of senior FAS consultant, Sage FAS Trainer where she was responsible for all aspects of fixed asset management and the Sage FAS software solutions. She has over 10 years of experience selling, implementing, training and developing internal business process controls & policy structure for hundreds of businesses throughout all industries. Angie brings with her proven leadership skills, people management experience, Sage FAS knowledge, and a high level of project management proficiency.

According to Scott Swarts, President of Paragon Systems, "As a proven leader in our industry, Angie has been successful with her product marketing strategies, helping clients realize the benefits of the FAS software Solution. Her knowledge, combined with Paragon's fixed asset implementation and professional services team, will surely enhance our firm's position and capabilities, improving client services. She will also bring exceptional marketing expertise and a fresh perspective to our corporate business model for growth of Paragon International, Inc.."

According to Angie Bolton-Lyons, "The experience I have gained over the last 10 years with the Sage FAS solutions as well as consulting on all aspects of fixed asset management will serve me well at Paragon Systems. I'm excited about my new role and look forward to the opportunities ahead."

About Paragon Systems

Paragon Systems, a division of Paragon International, Inc. located in Schaumburg IL, is an authorized business partner of Sage Software and certified in the Asset Accounting and Inventory applications. Paragon has been working with Sage Software providing fixed asset management solutions for over 20 years. They provide a complete Goldstrike solution, including inventory services and bar-coding hardware, data conversion and integration, cost reconciliation and appraisal services, and software customization and training.
